G. A. R. ENCAMPMENT

COMRADES AND MEMBERS OF W. R. C. RETURN TO THEIR GLENDALE HOMES

The G. A. R. Encampment at Huntington Beach closed Friday and members of the Glendale Post and Corps who had been attending the sessions and who had not already returned to this city, came home. The closing exercise was the installation of newly-elected officers, Mr. Myles of Los Angeles, who has been a frequent visitor in Glendale, being made commander president of the Southern California Veterans' Association, and Mrs. Ida Herndon president of the Southern California Women's Relief Corps. Rev. C. R. Norton was for the seventh time elected chaplain of the organization and C. H. Clark, a past commander, was elected adjutant. There were the usual speeches of congratulation both amusing and serious, and gifts were presented to retiring commander and president, with the customary closing in which all joined hands and sang "God Be with You 'Till We Meet Again." About twenty-five members of N. P. Post and twenty members of its W. R. C. attended the encampment which proved a very pleasant reunion.

Visit Old Home

Mr. and Mrs. E. B. Ellias of 104 West Cypress avenue had the pleasure of entertaining last week their daughter, Mrs. Lillian Davis, of Las Plumas, in the Feather River country, California, and Mrs. Gladys Hart of Fresno. Several social affairs were given while they were here, one being a luncheon at which Mrs. Ellias entertained Mrs. Alexander Mitchell and daughter, Miss Lorraine Mitchell, Miss Iva Hunter, Mrs. Ella Richardson and Miss Lillian Smalley. There were also family gatherings and on Sunday the host and hostess entertained at dinner Mr. and Mrs. Charles Wright, relatives who have come from Waltham, Mass., to make a home in Los Angeles. Mrs. Hart left Friday night and Mrs. Davis Monday night.

Holds His Age Well

J. W. Legg of 429 Fernando Court, 82 years of age and still full of life and vigor, is an example of what outdoor life and clean living will do for a man. His abundant hair is tinged heavily with gray, but there is not a hint of baldness, his sight and hearing are good, and he is a hard worker in his little garden, day after day. He was born in Indiana, came to San Jose in 1906, just after the earthquake and to Glendale a few years later. He has two married sons and a daughter in the North. His wife died in 1901 and since then he has lived alone, doing his own housework.

Entertaining Guests

Several informal social affairs have been given during the week in honor of Mr. and Mrs. A. C. Wright of La Mesa, California, who are here as guests of Mr. and Mrs. A. A. Tyler of 724 East Windsor Road, Miss Edith Tyler of 623 North Maryland, and other relatives. On Thursday evening they were honorees at a picnic supper in Echo Park attended by Mr. and Mrs. A. A. Tyler, their daughters Hazel and Elsie Tyler, Miss Edith Tyler, Mrs. Nellie Cornell, mother of Mrs. Tyler, Mr. Lampman, Mr. and Mrs. L. O. Pease. On Friday the same group was entertained by Charles and Frank Denhart and Clyde Nessler and families of Burbank. Today the Wrights are the guests of Mr. and Mrs. E. W. Kingsley of 108-A E. Broadway. Mrs. Cornell has recently returned to the home of her daughter, Mrs. Tyler, after quite a sojourn in Los Angeles.

NEBRASKA FRIENDS

MR. AND MRS. JACK THOMAS ENTERTAIN OLD NEIGHBORS FROM LINCOLN

Mr. and Mrs. Jack Thomas of the White Inn entertained one evening this week with a dinner for old friends who were their neighbors when they lived in Lincoln, Nebraska, viz: Mr. and Mrs. Arthur Dener and children and Mr. and Mrs. Clyde Schbeck and children, whom they had not seen for a long time. These friends are now in Los Angeles in the expectation of locating in Southern California and the Thomases will try to persuade them to come to Glendale.

SUPPORT BONDS

VOTERS ASKED TO VOTE YES MONDAY TO RELIEVE H. S. CONGESTION

The time for opening the next term of the Glendale Union High School is near and as there was a lack of room to accommodate the boys and girls last year the need of more room will be much greater now.

The Board of Trustees has called an election for Monday, August 16, to vote $60,000 bonds to be used to construct five or six bungalow class rooms, a girls' gymnasium and making changes in the present auditorium.

On account of differences of opinion as to the extent of the improvement to be made and a permanent site for the school buildings this making provision for additional school rooms for the coming year has been delayed, but now the question presented to the voters of the district is certainly one upon which all can agree and the earnest support of every resident of the Glendale Union High School district is needed next Monday.

There is no need at this time of entering into the merits and demerits of the difference of opinion that caused the delay. What is needed now is more room for the boys and girls as soon as possible.

The polls open at 8 and close at 6 and the voting places are Glendale Union High School, Central School in Eagle Rock, Crescenta School and Glorietta School.

MORELAND FOREMEN

BIG FACTORY'S DEPARTMENT HEADS BANQUET AT WHITE INN

On Thursday evening the Foremen's Association of the Moreland Truck Company of Burbank held its regular semi-monthly banquet and business meeting at the White Inn, as has been the custom for the past few months. Nearly all of the department foremen were present, only those who were away on their regular vacations being absent. C. R. Rogers is the president and P. J. Wagoner is the vice-president. Both were on hand and took an active part in the discussions which were held on various matters pertaining to the work of this great factory. The management heartily encourages these organizations of the employes as they tend to promote efficiency in workmanship and loyalty to the company.

Glendale Avenue

A large map showing the course of the highway which the city of Los Angeles proposes to name Glendale avenue, extending from Second street northwesterly to the southern city limits of Glendale, has been prepared by the city engineer's office. It shows also the proposed connection by way of Brand boulevard and Forest street with our own Glendale avenue. The proposition is being discussed by Glendale citizens and there is a division of sentiment regarding it.

Scates—Engle

Clarence B. Scates of Neenach, Calif., and Miss Vivian B. Engle were united in marriage last evening at 7:30 at the manse, Rev. W. E. Edmonds officiating. The ring ceremony was used. Mr. and Mrs. Paul McCormick, friends of the young couple, were the witnesses to the ceremony. The bride is a daughter of John B. Engle and wife, of 814 East Harvard. The groom is a rancher. He and his wife will leave in a few days for Neenach to settle down on the ranch.

WATER SPORTS

MISS JEANETTE M'LENNAN IS SPENDING PLEASANT SUMMER AT ST. CATHERINE'S CAMP

Miss Jeanette McLennan returned Friday from Balboa for a week-end visit with her parents, Mr. and Mrs. T. W. Preston, on North Jackson. She has been spending the summer at the beach in the camp of St. Catherine's Girls' School as physical director of sports. The camp is located at the Palisades. She says the tides have been so high the past three or four days that all the piles of the jetty and the railroad tracks laid upon it have been washed away and there has been surf right in the bay.

SEA COMMERCE SUSPENDED

VESSELS AT SAN DIEGO FORBIDDEN TO CLEAR FOR PORTS IN LOWER CALIFORNIA

(Special Service to Glendale Evening News)

SAN DIEGO, Aug. 14.—All sea commerce between this port and Lower California was suspended today as the result of an order from Mexico City to the local Mexican Consul. No ships are allowed to clear for destinations in the Northern Province of Lower California. Impending military operations against Governor Cantu were given as the cause of the suspension.

Three thousand Federal troops have landed at El Varril on the Lower California peninsula and will begin a 200-mile march across the desert to attack Cantu's forces at Mexicali, Mexican Consul Lelevier announced today.

LOS ANGELES, Aug. 14.—The landing of the Mexican Federal troops at ElVarril on the east shore of the Gulf of California, reported in dispatches from Lower California today, is directly in line with the determined policy of President de la Huerta to deal firmly with Governor Cantu in the Lower California controversy, according to Roberto V. Pesquerra, financial agent of the Mexican Federal government. Pesquerra, who admitted having been sent here by the Mexican de facto government "to look over the situation" in Lower California, today denied that he was empowered to deal with Governor Cantu. No negotiations are being conducted between the Lower California executive and the Federal government, he said.

WARSAW STILL LOYAL

ONE HUNDRED THOUSAND CITIZENS SWEAR TO DEFEND CITY TO THEIR LAST DROP OF BLOOD

(Special Service to Glendale Evening News)

WARSAW, Aug. 14.—With the "Reds" reported only twenty miles away, 100,000 citizens gathered today and swore to defend the city with the last drop of their blood. Meanwhile the roar of guns could be heard as the throngs assembled. Despite this loyalty to the nation it was evident that the great mass of the people have lost faith in the army leaders and government.

Polish Bolsheviki were busy behind the lines boasting that "the Red tide is rising.

WAR ON CRIMEAN FRONT

EXTENSIVE OPERATIONS UNDERTAKEN TO LURE BOLSHEVIK FORCES FRONTING WARSAW

(Special Service to Glendale Evening News)

PARIS, Aug. 14.—Forces under General Wrangel have started extensive operations on the Crimean front in an attempt to draw the Bolshevik forces away from the Polish front, according to unofficial advices received here.

Wrangel's army has defeated the Thirteenth Bolshevik army, taking 4000 prisoners, the report said.

Russo-Polish armistice negotiations have begun, according to a Warsaw dispatch received here today.

Three French cruisers have been ordered to Odessa to protect French and British sailors on two vessels being held by the Bolshevik forces there. The Bolsheviki charged that the ships were carrying contraband to General Wrangel's forces.

DEVELOPMENTS IN PONZI CRASH

POLISH INDUSTRIAL ASSOCIATION CLOSED BY BANK COMMISSIONER FOLLOWING INVESTIGATIONS

(Special Service to Glendale Evening News)

BOSTON, Aug. 14.—The Polish Industrial Association, a private bank, was seized and closed by the State Bank Commissioner today following investigations showing the bank had many bad and doubtful loans. The Polish bank is the second to be wrecked in the Ponzi crash. Henri Chmrelinski, president of the Polish Association, was also president of the Hanover Trust Company, which was closed following Ponzi's arrest.

Several additional officers of the Colonial Foreign Exchange Company were arrested on charges of larceny today.

Charles Ponzi was still held in jail today being unable to raise a bond of $35,000, although a week ago he talked in terms of millions.

RESENT PRESIDENTIAL INSTRUCTIONS

TENNESSEE LEGISLATORS WIRE WILSON THEY WILL NOT SACRIFICE HONEST CONVICTIONS

(Special Service to Glendale Evening News)

NASHVILLE, Tenn., Aug. 14.—Speaker Walker of the Lower House of the Tennessee Legislature today telegraphed President Wilson "The men of Tennessee will not surrender their honest convictions for political expediency," in reply to a message from the President asking the Lower House to concur with the Senate in the ratification of the Federal suffrage amendment.

P. E. RATES

RAILROAD COMMISSION ASKED TO CONTINUE HEARING, SAYS MR. EVANS

City Attorney W. E. Evans of Glendale, who is a member of the City Attorney's Association of Southern California, reports that the association after numerous conferences has applied to the State Railroad Commission for a continuance of the hearing in the matter of the Pacific Electric Railway Company's application for permission to raise rates.

The association thoroughly disagrees with the Pacific Electric Co. that there is an immediate emergency and says there is a lack of evidence to sustain this conclusion and contends that the people in the communities which the association represents, totaling more than a million should have sufficient time to employ experts to check over the mass of data presented by the company and throw additional light upon the matter in order to assist the Commission in reaching a conclusion. Since the application demands of the public served by the Pacific Electric a tribute of $1,750,000 in passenger railway fares for the coming year it is only fair that the people who must pay should have the opportunity to investigate the matter. The company should welcome this assistance, it is claimed. The Association asks that the hearing be continued for at least three months.

Woods Family Reunion

Mrs. C. G. Woods of Grand View is entertaining her youngest son, S. McK. Woods, who recently arrived from Pittsburg, Pa., and who will be here for about a month. He will spend two or three days in San Diego to transact business for the S. M. Black Company, one of the large realty firms of Pittsburg of which he is a member. Mrs. Woods at present has four sons in Southern California. William Woods, who came here a year ago, is now connected with the Sperry Flour Company of Long Beach. The finishing touches on the new home Mrs. Woods has built in North Glendale are nearly completed.

Boat Trip

R. A. Peterson, for several years in the grocery business on East Broadway, but now a resident of Los Angeles, was in Glendale Saturday looking after some business affairs preparatory to leaving Monday, with his wife, for a long trip. They will go by boat to Seattle, then to Calgary, Canada, for a few days' visit, then will go by the Canadian Pacific to Toronto. Niagara Falls, New York, Philadelphia and Pittsburg will be visited and stops on the way back will be made in Ohio, Illinois and other states. They expect to be away about 2½ months.

Returns to School

John Richardson, son of Mrs. Ella Richardson of Riverdale Drive, is leaving today for Mount Tamalpais Military Academy. He and his mother were guests Thursday on the "Arkansas," which is lying in the harbor at San Pedro. Afterwards they visited Long Beach to see the high tides which came clear up to the cement walk on the pike and then went to Belmont Shore Terrace on Alamitos Bay for a dip in the ocean. They found the water very quiet and Mrs. Richardson is considering getting a beach home there.

COKER'S CANDIDACY

GLENDALE CANDIDATE FOR SUPERVISOR A BUSY AND SUCCESSFUL BUSINESS MAN

H. P. Coker, the man with more business than any other man in Glendale, is a candidate for the office of Supervisor of the Fifth Supervisorial district. Mr. Coker certainly does not seek the office that he may get a job for he is on the jump every minute of his life now. The position of Supervisor of Los Angeles county is an important one and it requires a man who is in the habit of doing business on a big scale and lots of it. Mr. Coker is well known in this county and is one of Glendale's successful business men.

Miss Marcella Miller of 114 West Broadway and her mother, Mrs. Leonora Miller are planning a two weeks' outing at Forest Home. They will go about the first of September.

REV. FORD HOME

SAYS ENJOYED VISIT IN EAST, BUT GLAD TO BE BACK

Rev. Ernest E. Ford, who has been on a long trip back East, visiting relatives and friends, says he is very glad to be back. Mr. Ford has been gone two months, and is sure that no place that he has visited can compare with Glendale for beauty, progressiveness and opportunity. Many of the towns visited do not appear to have changed in the past 30 years; only some of them have changed in the wrong direction.

Mr. Ford first attended the Commencement of his College, his first visit since his graduation twenty-three years ago; then the Northern Baptist Convention at Buffalo for a strenuous ten days; after which he visited his old mother, whom he had not seen in eleven years. July 20th the entire family were privileged to be together after a lapse of thirty-two years; it was a day never to be forgotten; eight brothers and sisters gathered from five different states to renew the days of yore.

The First Baptist Church of which Mr. Ford is the pastor, has been well taken care of during his absence. Some fine preachers have ministered to the faithful people; but pastor and people are rejoiced that the vacation of the pastor is over and that he is back in his old place.

Sketching Trip

John Cotton of North Glendale has returned from a seven weeks' outing and sketching trip in the mountains around Bishop and Independence. He went with two fellow artists, Benjamin Brown and Owen White of Pasadena. They ascended to the 11,000 foot level where there was plenty of snow still to be found and ice formed every night. They had a very nice time together. Mrs. Cotton is enjoying her visit in the East and will not be home until the latter part of September.

STAUB IN ALASKA

RALPH B. OF THAT NAME, TAKING VIEWS FOR FILMS IN NORTHWEST

A copy of the Nenana, Alaska, Daily News has been received by the Glendale Evening News, telling of the arrival of Ralph B. Staub, a cinematographer of Glendale, Calif., who had come to interior Alaska with his motion picture camera to take a series of films for showing "outside," as the home country is designated. Young Staub and his father have been working at the Astra Studio on North Verdugo Road and the father is there now. They both claim Glendale as their home. The young man expected to spend the entire summer in Alaska, visiting the principal cities and taking many views.

Luncheon Party

One of the pretty social functions of the past week, but one which was quite informal was a luncheon given by Mrs. Dwight Stephenson at which five old friends were guests, viz: Mrs. James L. Flint, Mrs. Fay Stone, Mrs. Gus Pulliam, Mrs. John Legge and Miss Myrtle Pulliam. The afternoon following the luncheon was devoted to needlework and music. On Sunday Mr. and Mrs. Stephenson entertained as dinner guests Mr. and Mrs. Chas. Hall of Los Angeles, and Wednesday evening host and hostess were themselves dinner guests of Mr. and Mrs. Linneman of Los Angeles.

WHITES BUILD HOME

SCHOOL SUPERINTENDENT AND HIS WIFE TO TRY LA CRESCENTA CLIMATE

Physicians having recommended the climate of La Crescenta for Mrs. Richardson D. White, who suffers from asthma, Mr. White is having a small cottage built there that they may try the prescription. Workmen are now engaged upon it and Mr. and Mrs. White drive out to inspect and assist in the work whenever they can get away. It will be quite easy for Helen and Mr. White to come in from there to school.

Miss Dorothy Savage was the guest for several days recently of Mr. and Mrs. William Justema of North Central avenue.

J. B. BURN ARRIVES

WITH TWO COMPANIONS HE CROSSES CONTINENT IN AUTO

From U. S. C. on the Atlantic seaboard to U. S. C. on the Pacific coast is the goal just attained by three young men, J. B. Burn of Society Hill; P. F. Boswell of Hartsville and H. R. Evans of Dillon, South Carolina. The three towns are neighboring municipalities and all three of the boys are graduates of the University of South Carolina. They came west to take a post-graduate course in the University of Southern California. They arrived in Glendale Aug. 5th, after a very pleasant auto trip which took them through many cities in the states of South and North Carolina, Tennessee, Kentucky, Illinois, Missouri, Nebraska, Colorado, New Mexico, Arizona and California. They are now guests in the home of H. S. Burn, a brother of J. B. The former and his wife have been in California about a year. J. B. said their trip, which occupied 45 days, including 10 days spent in sight-seeing, was a very pleasant one. They camped out every night except when they stopped in Independence, Mo., to visit a former teacher of theirs in U. of S. C. By far the best roads were found west of the Mississippi. The faithful Ford made the trip with no repairs except to tires.

"THOU SHALT NOT"

The oldest laws in the world have been violated uncounted billions of times. They are violated every day of every year and they will be violated similarly throughout time. They are violated so persistently by so many people everywhere that some of them, at least, might almost be said to be dead letters. They are far from that, however.

The Ten Commandments form the nucleus of virtually all the law, written and unwritten, that we have. They make up the moral law and have been neither weakened nor strengthened by man by incorporating them into his statutes. Is it not a curious thing that mere man has found it either necessary or desirable to legislate to enforce injunctions issued from Heaven? He did so, of course, not with any thought of making them laws, for that already had been done as completely as it is possible to be done.

In truth, our criminal statutes, founded on the moral laws, are but enforcement acts. If man were different from what he is these latter would be unnecessary. But man isn't. A great many of him there are who simply will not obey. They have but imperfect respect for any law and none at all for some laws. They make a showing of reverence for authority, divine or human, only when it is convenient to their purposes so to do. Others are not lawbreakers but they might be were they not in fear of the penalties which the laws provide for those who violate them, or they feel that if it were not against the law they would like to do some forbidden things. These are potential law-breakers. From their re-action to man-made laws we learn the indispensability of the statutes which have been enacted. These same people would be violators of the moral laws were they not restrained by conscience, which imposes its own penalties for evil-doing. From all of which we observe that no law is self-enforcing.

Without a penalty clause attached, a criminal statute is worthless. You know even the commandments are not without their promise of terrible punishment for those who go counter to them. The fundamental moral laws have enforcement acts written into them. And deep in the hearts of all people having faith in things divine or in things human, there is conviction that these laws should be obeyed, however those same people may transgress them. Has it occurred to you that with possibly one exception there never has been a serious proposition to modify any of the moral laws by statutory act? The human conscience rebels against anything like that.

There is rather a widespread tendency to excuse a "white lie" as harmless. But the prohibition is against lying, which quite properly is held to mean any kind of untruth. It is the law. That particular one is left very largely to the individual conscience for its enforcement, though there are statutes providing severe punishment for lying under certain circumstances.

Thou shalt not steal. In the thousands of years since it was ordered for the guidance and protection of humans never has one person suggested that the statutes reinforcing the moral law be altered to permit mild thieving, pocket picking or secret pilfering, say, while keeping the inhibition against burglary or highway robbery. Nobody would have the temerity to propose the legalization of 2.75 per cent of stealing. And for the simple reason that the laws that make stealing a crime, are universally recognized as prohibition laws, and they condemn even the laws, and they condemn even the smallest degree of dishonest acquisition of things. To that extent we have universal respect for these laws. We cannot expect anything more in the present state of development of the human conscience.

Lawbreakers there will be always. The great majority of the people will respect the laws and the authority charged with their enforcement. That much will be insisted upon. Man-made laws we may repeal if such a course appeals to the judgment of the people who, ultimately, are the lawmakers. There can be no compromising with law. Any form of compromise with law is nullification. We think there is nothing more firmly established than that in the minds of the vast majority of Americans today. The signs pointing that way are ubiquitous.

Vote for school bonds Monday.

VOTE FOR

$60,000 H. S. BONDS

Monday, August 16th

At a meeting of the High School Welfare Association held the first of the week, the following resolution was unanimously adopted:

WHEREAS, The Board of Trustees of the Glendale Union High School have called a Bond election on Monday, Aug. 16th, for the sum of $60,000 and

WHEREAS, This sum is to be used for the purpose of providing the temporary additions and improvements made necessary by the increased attendance and

WHEREAS, The call as issued might give the impression that the money might be used for purposes other than these mentioned above, and

WHEREAS, A committee from this association has conferred with the school authorities and have been furnished the following information as to the disbursement of the above-mentioned sum, to-wit: Erection of five double bungalow class rooms, and one locker room of same dimensions as bungalow class rooms, these six buildings to cost the sum of $30,000, the interior furnishings for these rooms to cost $6000, the necessary plumbing to cost $1500, lockers for room to cost 2000. Erection of a girls' gymnasium at a cost of approximately $12,000, necessary electric work $1000.

In addition to the above the interior remodeling of the present administration building to provide additional class rooms and the enlarging of the boys' gymnasium, and renovation of the heating system will cost $7500, and

WHEREAS, This association deems the above expenditure to be of vital necessity, therefore be it

RESOLVED, That this association lend its unanimous support to the action of the Board, and urge the voters of this District to use every effort to carry this Bond Issue.

High School Welfare Association

F. H. LOWE, President

Many a day dreamer has had a rude awakening at a busy street crossing.

What the country needs is not so much lung power, but more energy in the bones and muscles.

A biologist says plants sleep until 9 a. m.—which is what a lot of folks would like to do.

Perhaps the Democrats are unduly worked up over contributions to the Republican campaign fund because they have only 400,000 job holders to collect from.

RE-ELECT HIM AT THE PRIMARIES!

Jonathan S. Dodge announces his candidacy for re-election as Supervisor of the Fifth District. Mr. Dodge bases his claims for re-election upon his record as a public official.

At the present time, the County of Los Angeles owns property valued at Seven million dollars, and has loaned out to the banks of the County on approved security more than Eight million dollars. In addition, the County has $1,200,000.00 of surplus funds invested in Liberty Bonds and Treasury Certificates.

On entering office, the General Fund of the County was overdrawn $2,521,678.46. The balance in the General Fund March 31st, 1920, was $2,444,269.74, a net gain of almost Five million dollars.

HE HAS MADE GOOD!

—Adv.

THE OLD STORY TELLER

There was a little advertisement, printed in one of our exchanges, that stopped the blue pencil from marking and the long shears from clipping for a few moments because it set the mind awandering. It merely stated that the School Board desired the services of a good story teller. Of course that did not mean that the school required a man or woman to make up lies and set them to music. It meant what it said, and that was the cause of the thinking.

The old story teller of the neighborhood was one of the characters of by-gone days whose name will never be forgotten. He could hold an audience of boys and girls until the fires went out and the old clock tolled 12 times and began again the round of another day. Those stories never grew old, although related many times. There was something strangely charming about the weird and fanciful tales of witches and hobgoblins that closed the doors on sleep.

What boy was there among us who did not appreciate the stories of hunting wild animals and capturing savage Indians? Then what about the narrow escapes of first settlers from armed bandits, witches and ghosts that questioned their right of citizenship? Those things, and a thousand others equally as thrilling, rush to mind as the memory spots are brushed and brightened, and we long for the days of the story teller.

Yes, they have story tellers in the public schools to interest the little tots, and they succeed as well as in the past.

GAS FRANCHISE

NOTICE OF SALE OF FRANCHISE TO LAY GAS PIPES

To Whom It May Concern:

Notice is hereby given that an application has been made to the Board of Trustees of the City of Glendale for a franchise, granting the right for a period of forty (40) years, to lay, construct, maintain and operate a single line of pipe for the purpose of carrying therein oil, natural gas, or artificial gas, under and along a certain portion of that public street known as San Fernando Road in the City of Glendale, and that it is proposed by the said Board of Trustees to offer for sale and grant to the highest bidder said franchise upon the terms and conditions herein mentioned and said franchise is described as follows, to-wit:

A franchise, granting the right for a period of forty (40) years, to lay, construct, maintain and operate a single line of pipe for the purpose of carrying therein oil, natural gas, or artificial gas under and along that portion of that certain public street known as San Fernando Road in the City of Glendale described as follows:

Beginning at a point on the northern boundary line of the City of Glendale, said point being within the lines of that certain street in said City known as San Fernando Road; thence following the course of said San Fernando Road to the point of intersection of the northern property line of that certain street in the City of Glendale known as Doran Street.

That the terms and conditions upon which said franchise will be offered for sale and granted are as follows, and the grantee of said franchise or assigns shall be required to file a written acceptance of the terms and conditions thereof with the clerk of the City of Glendale, within thirty days after the passage of the ordinance granting the same.

That the grantee of said franchise, his, its or their successors or assigns, shall have the right to construct and maintain such traps and manholes as may be necessary to afford proper access to the said pipes and pipe lines for cleaning and maintaining the same, and said traps and manholes shall at all times be kept flush with the surface of the highway and so located as to conform to any order of the Board of Trustees of said City in regard thereto, and not to interfere with the use of the highway for travel, water mains or permanent culverts along said street. The grantee of said franchise, his, its or their successors or assigns, shall have the right, subject to such regulations as are now or hereafter may be in force, to make all necessary excavations in said highway for the construction and repair of said pipe lines, traps and manholes.

That the pipes to be laid and maintained under said franchise shall be of steel, of good workmanship and of an internal diameter of not less than twelve (12) inches nor more than sixteen (16) inches.

That the grantee of said franchise, his, its or their successors or assigns shall furnish and sell to the City of Glendale, or to any person or company operating a distributing system and maintaining the same in the City of Glendale, now or hereafter, gas for domestic and manufacturing purposes, and that the gas so furnished shall be furnished and sold at wholesale rates to said City of Glendale, or other person or company, above referred to, and that the gas so furnished shall be of good quality, free of injurious ingredients and of sufficient purity to be suitable for domestic use or manufacturing use, and that the grantee of said franchise, his, its or their successors or assigns, shall, upon request made by the City of Glendale, or by any person operating a distributing system now or hereafter in said City of Glendale, and upon payment of his, its or their reasonable charges for making the connection and for furnishing gas, furnish to such person, company or the said City of Glendale an adequate supply of said gas for domestic or manufacturing use, or for both such purposes.

That in event the said grantee, his, its or their successors or assigns shall in fact convey oil through said system of pipe lines said City of Glendale and all persons residing therein shall be entitled to receive from said grantee of this franchise an adequate supply of oil for domestic and manufacturing purposes, that the oil so to be furnished by said franchise, his, its or their successors or assigns shall be of the same purity and grade as the oil furnished by said grantee, his, its or their successors or assigns to other customers along said pipe line system and at the termini thereof, and that the grantee of said franchise, his, its or their successors or assigns, shall, upon request from and by said City of Glendale, or by any person or company operating a distributing system now or hereafter in said City of Glendale for the distribution of oil and upon payment of his, its or their reasonable charges for making the connection and for furnishing such oil, furnish to such person or company or the said City of Glendale an adequate supply of said oil for domestic or manufacturing use or for both such purposes.

That all pipes shall be laid not less than two feet under ground, and, unless the Board of Trustees of said City shall otherwise direct, shall be laid along the sides of the highways and shall be within five feet from the curb lines in said street, and shall not be nearer than three feet to the macadamized portion of said road; and in the event that it is necessary to cross any portion of macadamized road, cement gutter or culvert, the same shall be done in such manner as not to disturb the foundation thereof, and in event the same cannot thus be done, the said crossing shall be made under a special permit to be granted by the Board of Trustees of said City upon application therefor, said application to be accompanied with a drawing, specifications and explanations, showing the necessity for the same. That during the laying or repairing of any such pipes, any trench or excavation made for such purpose shall, from sunset to sunrise, be barricaded and protected by lanterns placed at distances of not more than one hundred feet apart, along such trench or excavation, one of which shall be placed in the center of any cross street fronting on said San Fernando Road, at the point where said work is in progress.

That every pipe line constructed, maintained or repaired under the provisions of this franchise shall be constructed, maintained and repaired in accordance and conformity with all of the ordinances, rules and regulations now in force and that may hereafter be adopted and prescribed by the Board of Trustees of said City of Glendale.

That the work of laying or repairing such pipes or other appliances shall be conducted with the least possible hindrance to the use of said highways for the purposes of travel, and as soon as the laying or repairing of any pipe or appliance is completed, all portions of the highways which have been excavated or otherwise injured thereby shall be placed in as good condition as the same were before the laying of such pipes, to the satisfaction of the Board of Trustees of said City of Glendale. That any damage or injury suffered by any person, by reason of any excavation being improperly guarded during said work, or by any cause whatever in connection with construction, laying or repair of said pipe lines, or pipe, shall be borne by the grantee of said franchise, his, its or their successors or assigns.

That the City of Glendale reserves the right to change the grade of said street or any portion thereof over which this franchise shall be granted, and the grantee of said franchise, his, its or their successors or assigns shall at once change the location of all pipes and other appliances laid under said franchise so as to conform to such change of grade. That if any portion of said highway shall be damaged by reason of leaks in any pipe laid under said franchise, or by any other cause, the grantee of such franchise, his, its or their successors or assigns, shall, at his, its or their own expense repair any such damage and put said highway in as good condition as before such leak, or other damage, to the satisfaction of the Board of Trustees of said City.

That if the grantee of said franchise, his, its or their successors or assigns, shall fail to comply with any of the instructions of said Board of Trustees with respect to the location of any portion of said system of pipes and pipe lines, or the repair of any damage to highways, within ten days after the service of written notice upon said grantee, his, its or their successors or assigns, requiring compliance therewith, then said Board of Trustees may immediately do whatever work is necessary to carry out said instructions, at the cost and expense of said grantee, his, its or their successors or assigns, which costs, by the acceptance of said franchise, said grantee, his, its or their successors or assigns agree to pay upon demand.

That the work of constructing and laying said system of pipes and pipe lines, shall be commenced in good faith within not more than four months from the granting of said franchise.

That the said grantee of said franchise, his, its or their successors or assigns shall, during the life of said franchise, pay to the City of Glendale, in lawful money of the United States, two per cent of the gross annual receipts of such grantee and his or its successors or assigns arising from the use, operation or possession of said franchise. No percentage shall be paid for the first five years succeeding the date of said franchise, but thereafter such percentage shall be payable annually.

And it shall be the duty of the grantee of said franchise and of his or its successors or assigns, to file with the Clerk of said City of Glendale at the expiration of six years from the date of granting said franchise, and at the expiration of each and every year thereafter, a statement, verified by the oath of the manager or presiding officer of said grantee or his or its successors or assigns, showing in detail the total gross receipts and gross earnings collected or received by said grantee or his or its successors or assigns during the preceding twelve months, arising from the use, operation or possession of said franchise, and within ten days after the time for filing the aforesaid statement, it shall be the duty of said grantee and his or its successors or assigns to pay to the City Treasurer of the City of Glendale the aggregate sum of the said percentage upon the amount of the gross annual receipts arising from the use, operation or possession of said franchise, and if the amount paid is incorrect, in the judgment of the Board of Trustees, they may order the payment of such additional sum as they may find due hereunder, and if not paid, the same may be collected by suit. And any neglect, omission or refusal by said grantee or his or its successors or assigns to file said verified statement, or to pay the said percentage of the said gross annual receipts at the times or in the manner hereinbefore provided, shall ipso facto work a forfeiture of said franchise and all of rights thereunder, to the City of Glendale.

That said grantee or his or its successors or assigns shall not sell, transfer, assign or lease said franchise or any part thereof, or any of the rights or privileges granted thereby, except by a duly executed instrument in writing filed in the office of the Board of Trustees of the City of Glendale, and nothing in said franchise contained shall be construed to grant to said grantee or his or its successors or assigns any right to sell, transfer, or assign or lease said franchise or any of the rights or privileges thereby granted except in the manner aforesaid.

Nor shall gas or oil to be carried by the said grantee, its successors or assigns through the pipe line for the construction of which this franchise is granted be disposed of directly or indirectly to any competitor of said grantee or its associated or subsidiary companies, operating in said City of Glendale, and be sold therein, except by the consent of the Board of Trustees of said City.

That any neglect, failure or refusal to comply with any of the conditions of said franchise shall thereupon immediately ipso facto effect a forfeiture thereof, and the said City, by its Board of Trustees, may thereupon declare said franchise forfeited, and may exclude said grantee or his or its successors or assigns from further use of the highways of said City under said franchise; and said grantee or his or its successors or assigns shall thereupon and immediately surrender all rights in and to the same, and said franchise shall be deemed and shall remain null, void and of no effect.

Notice is hereby given that sealed bids in writing will be received at the office of the City Clerk of said City of Glendale for said franchise up to 8 o'clock in the afternoon of the 26th day of August, 1920.

That the bids received will be opened at that time; that all bids must be for the payment of a stated sum in gold coin of the United States; and that the franchise will be struck off, sold and awarded to the person, firm or corporation who shall make the highest cash bid therefor, provided only, that at the time of opening said bids, any responsible person, firm or corporation, present or represented, may bid for said franchise a sum not less than ten per cent above the highest sealed bid therefor, and that said bid so made may be raised not less than ten per cent by any other responsible bidder, and said bidding may so continue until finally said franchise shall be struck off, sold and awarded by said Board of Trustees to the highest bidder therefor in gold coin of the United States, and provided further that the Board of Trustees reserve the right to reject any and all bids.

Each sealed bid must be accompanied with cash, or a certified check, payable to the City Treasurer of the City of Glendale for the full amount of said bid, and no sealed bid will be considered unless said cash or check is enclosed therewith; and the successful bidder must deposit at least ten per cent of the amount of his bid with the Clerk of said City before said franchise will be struck off to him, and if he shall fail to make such deposit immediately his bid will not be received and will be considered as void and said franchise will then and there be again offered for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit as above mentioned. Said procedure will be had until said franchise is struck off, sold and awarded to a bidder who shall make the necessary deposit of at least ten per cent of the amount of his bid, as herein provided. Said successful bidder shall deposit with the City Clerk within twenty-four hours after the acceptance of his bid the remaining ninety per cent of the amount thereof, and in case he or it fails to do so, then the said deposit theretofore made will be forfeited, and the award of said franchise will be void, and said franchise will then and there, by the said Board of Trustees, be again offered for sale to the highest bidder therefor, in the same manner and under the same restrictions as hereinbefore provided, and in case said bidder fails to deposit with the City Clerk the remaining ninety per cent of his bid within twenty-four hours after its acceptance, the award to him of said franchise will be set aside, and the deposit theretofore made by him will be forfeited and no further proceedings for the sale of said franchise will be had until the same shall be readvertised for sale.

Notice is also hereby given that the successful bidder for said franchise must, within five days after said franchise is awarded to him or it, file with the said Board of Trustees a bond running to said City in the penal sum of One Thousand ($1000) Dollars with at least two good and sufficient sureties, to be approved by said Board of Trustees, conditioned that said bidder will construct said pipe lines and shall well and truly observe, fulfill and perform each and every term and condition of said franchise, and that in case of any breach of condition of said bond, the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages and shall be recoverable from the principal and sureties upon said bond. If said bond be not so filed, the award of said franchise will be set aside, and any money paid therefor will be forfeited. The Board of Trustees reserve the right to grant similar franchise over said street to any other person or company.

J. C. SHERER,
City Clerk of the City of Glendale.

LEGION CONVENTION

MEETING AT SAN DIEGO TO PROVIDE FINE PROGRAMS AND ENTERTAINMENT

Members of the Glendale Post, American Legion, in common with other Posts, are greatly interested in the convention which is to take place in San Diego August 21st to 25th inclusive. Delegates from the Glendale organization have been named as follows: Dru Nicoles, James F. McBryde, Gordon Clayton, W. B. Kelley, R. D. White and A. H. Jones. Alternates are: Joe Wilson, Dwight Stephenson, Owen Emery, Dr. C. M. Taylor, Chase Story and Mr. McLeod. It is expected that all of the men named will go to San Diego and that they will leave here Sunday noon by auto.

No provision has been made by the convention for delegates from Women's Auxiliaries, but entertainment is being provided for all who care to come and they will be made welcome. Mrs. George Clayton will take a party from the Glendale Chapter by auto to the convention city. It will include Mrs. James McBryde, Mrs. June Stone, and probably Mrs. W. B. Kelley. They will leave here Sunday morning. Mrs. Harris and Mrs. Hawkins, Auxiliary members, also expect to attend.

As a courtesy to the convention the entire Pacific Fleet will be assembled in the San Diego harbor. Admiral Hugh Rodman, Commander of the fleet, and General Hunter J. Liggett, Commander of the western army division, will be there to respond to roll call, and Governor Stephens will open the convention with a personal address.

Following the daily sessions at which officers will be elected and delegates to the national convention chosen, and where discussions will take place relative to insurance, Red Cross, Boy Scout movement and other lively topics, there will be entertainments each night, part of which will be staged across the Mexican line in Tia Juana and consist of typical Mexican fiestas; as a promise has been given that the embargo against crossing the line will be lifted for the benefit of the ex-service men.

THE EVENING NEWS OFFICE IS OPEN FOR BUSINESS FROM 6:30 O'CLOCK A. M. TO 9:30 P. M. EVERY DAY OF THE WEEK EXCEPT SUNDAY. 139 SOUTH BRAND BOULEVARD. PHONE GLENDALE 132.

CERTIFICATE OF BUSINESS

Fictitious Firm Name

The undersigned do hereby certify that we are conducting a general construction and contracting business at 103½ South Brand Boulevard, Glendale, California, and at 2597 West Pico Street, Los Angeles, California, under the fictitious firm name of ROMMEL CONSTRUCTION COMPANY, and that said firm is composed of the following persons, whose names and addresses are as follows, to-wit:

John Rommel, 1318 Albany Street, Los Angeles, California.

H. E. Rommel, 903 West Broadway, Eagle Rock, California.

Witness our hands this 5th day of August, 1920.

JOHN ROMMEL.
H. E. ROMMEL.

STATE OF CALIFORNIA,)
(ss.
COUNTY OF LOS ANGELES,)

On this 7th day of August, in the year nineteen hundred and twenty, before me, James F. BcBryde, a Notary Public in and for said County, residing therein, duly commissioned and sworn, personally appeared John Rommel and H. E. Rommel known to me to be the persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same.

Witness my hand and official seal.

JAMES F. McBRYDE,
Notary Public in and for said County and State of California.

JAMES F. McBRYDE, Attorney,
103-A North Brand Boulevard.

SUMMONS

Action brought in the Superior Court of the State of California, in and for the County of Los Angeles and the Complaint filed in said County of Los Angeles, in the office of the Clerk of said Superior Court.

In the Superior Court of the State of California, in and for the County of Los Angeles.

Eula Towne, Plaintiff, vs. Merton A. Towne, Defendant.

The People of the State of California Send Greetings to: Merton A. Towne, Defendant.

You are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the County of Los Angeles, State of California, within ten days after the service on you of this Summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or said plaintiff will apply to the Court for any other relief demanded in the complaint.

Given under my hand and seal of the Superior Court of the County of Los Angeles, State of California, this 11th day of July A. D., 1919.

ROY W. DOWDS, Clerk.

ANNOUNCEMENTS

ADVERTISEMENTS

GOSPEL LECTURES

Evangelist C. S. Prout announces that the Gospel Lectures beginning in the large tent pavilion, will be continued in the Seventh Day Adventist Church, corner of California and Isabel Streets. The lecture Sunday evening at 7:45 will be "Will the Jews Return to Jerusalem According to Bible Prophecy?" The evangelist extends a hearty welcome to all.

NOTICE

Owing to the increased cost of ice manufacturing and delivery, it becomes necessary to raise the price of ice to the Glendale consumer, from 60 cents per 100 pounds to 70 cents per 100 pounds, which price will be effective on and after Monday, August 16, 1920.

(Signed) CRYSTAL ICE DELIVERY

SUNDAY EVENING, 7:45

Hear Prof. F. W. Lough at the First Methodist Church. Subject, "The Tobacco Problem." Every lad and his dad ought to hear this message.

ICE NOTICE TO THE PUBLIC

On account of the extra cost of delivery and hauling due to the raise in gasoline, the price of ice will be raised to 70c a hundred, delivered, and 60c on the platform, beginning Monday, August 16. No 10c cuts either on the platform or from the wagon. Platform opens at 8 a. m. and closes at 7 p. m. Open until 10 a. m. Sunday. No deliveries on Sunday. Independent Ice Co., Glen. 217.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the undersigned have this day, by mutual consent, dissolved the partnership heretofore known as Mannell & McClain, of Glendale, California.

Mr. Mannell will continue the business under his own name, retaining the partnership property and assuming and paying all debts and obligations of the company.

Dated at Glendale, California, August 14, 1920.

Personals

L. E. Talley and family have moved from 465 Vine to 118 West Chestnut.

C. A. Nagle and family have moved from 443 Patterson avenue to 226 North Louise.

Mr. and Mrs. William Hooper of 335 West Harvard street left yesterday for a week's outing at Catalina.

L. E. Jennings and family have moved from 1526 East Colorado to 1234 West 68th street, Los Angeles.

The Jolly Twelve card club will be entertained at the home of D. H. Smith on North Maryland this evening.

Mr. and Mrs. Andrew Stephenson of South Central avenue have returned from a week's sojourn at Redondo Beach.

Mrs. Haskell Lapham of 415 West Broadway on Wednesday entertained the bridge club to which she and Mrs. George D. Roach belongs.

H. E. Betz has begun the construction of a store building for Mattison B. Jones at 201 and 203 North Brand boulevard, to cost $3000.

T. L. Totman, manager of the Acme grocery store, will spend his two weeks' vacation at Catalina, accompanied by his wife and children. They go tomorrow.

A $5000 residence and garage has been started at 454 West Lexington Drive by J. A. Vossbrink. This is close to Pacific avenue. The house is to be of five rooms.

Another fine residence for West Harvard is that of R. J. Nielsen, just commenced at No. 366. It is to be of five rooms and the cost is given as $4500. A. L. Fryer is the contractor.

Mrs. Hartley Shaw of West Park avenue has motored to Claremont to visit friends and bring home her father and mother, Mr. and Mrs. West, who have been spending a few days there.

Mr. and Mrs. Louis M. Richardson of North Belmont and their two sons will leave in the near future for a camping trip in the mountains back of Ventura, and will be gone about two weeks.

Robert M. Ford, son of Rev. and Mrs. Ernest E. Ford, who has been spending his vacation with his parents in Glendale, returned yesterday to Davis, for his second year in the State Agricultural College.

The official bugler of N. P. Banks Post, Robert Searle of this city, acted as bugler at the G. A. R. Encampment at Huntington Beach and performed his duties so well that he was elected to the office for 1921.

Born to Mr. and Mrs. George L. Betts of 513 East Palmer avenue, Monday, August 9, 1920, a little daughter who has been named Kathleen Barbara Betts. She is their third child.

Mrs. Laura Walcott of the Walcott Beauty Parlors was surprised and delighted Friday to receive a visit from friends from her old home town, David Youtz and daughter, Miss Bess Youtz, of McKee's Rocks, Pa.

Mr. and Mrs. Rudel, who are occupying the home of Mrs. Mabel Rudy of West Lomita, and Mrs. M. G. Smith, mother of Mrs. Rudel, will spend the week-end in Long Beach as guests of Mrs. N. L. Binford.

W. B. Kirk, who visited A. L. Lawshe, formerly of Glendale, at the home of his son in Los Angeles several times during the past few days, says he is slowly but steadily improving and his physician holds out strong hopes of his recovery.

Elder R. W. Munson and family have moved from 219 North Kenwood to a house on the rear of Dr. Liles' place at 1433 Valley View Road, where Elder Munson will look after a small lemon grove in order to be out in the open as much as possible.

Mr. and Mrs. John Gardner of 213 Milford are entertaining friends from the east this week. As the guests greatly enjoy the ocean, several days have been spent at the various beaches. Today they are attending the Iowa picnic at Long Beach.

A gang of workmen is engaged in repairing the breaks in the concrete paving that borders the rails of the P. E. tracks along East Broadway and in places cutting through between the rails to install cross wires to prevent electrolysis of the water pipes.

Z. L. Hesse, who has been living at 409 East Harvard for several years, has bought a lot at 452 West Dryden and will build at once a temporary residence to live in till he has time to put up a permanent home.

Rev. C. A. Cole and family arrived at home last night from a 10-days' outing at Camp Baldy, which they found filled with vacationists. Only one other Glendale family was met, that of Edgar Lloyd Smith, 504 Fairmont avenue. They spent the first half of the present week there.

THINK OF IT!

Last year the American people paid about a billion dollars for life insurance. Do you think that a plenty? Why—they SPENT fully that much for candy and two-thirds as much for cosmetics! About two and one-half billions goes for tobacco!

When people "blow" their money for these things do you think the life insurance man has a sphere of duty? He certainly needs to be on the job preaching the Gospel of Thrift and Protection.

Wives do not always give the encouragement and suggestion they should when their husbands are thinking of securing this protection. They certainly would if they only realized that seven-eighths of all that men leave at death is life insurance! THERE IS NO SUBSTITUTE!

W. B. Kirk

Protector of Homes.

For 12 years a resident of Glendale.

MRS. E. HOLMAN

204 W. Colorado Blvd., One block from Brand.

You furnish the appetite, we furnish the rest.

O. Sorenson and wife have sold their residence property at 453 Oak street to people who lately came to the coast from Wisconsin and will give possession August 25th, when they will move into the new home they are having built on Howard street, above Doran.

A 5-room house is being put up on Vine avenue in the Grand View district for Mrs. Rose T. Lucas, to cost $2500. R. L. Crawford is the builder. The location of Mr. Davis' big greenhouse and other industries in that district has given a great impetus to the building of residences.

Mr. and Mrs. John Hobbs of South Central avenue are this week entertainiing Mr. Hobbs' sister and niece, Mrs. Fred Moore of Oneida, Illinois, and daughter, Miss Martha Moore, who is a teacher in Arizona. They have been spending the summer in Long Beach. They will be here until the middle of next week.

Miss Lillian Shropshire goes to Ontario this evening to visit with her mother until Thursday next, when she will be joined by her sister, Miss Birdie, and they will go to San Francisco by stage, stopping at several points along the way to San Francisco to visit relatives and friends. They will come back by boat.

Nathan Rigdon, wife and son of 224 West Doran are now in Colorado on their way to the eastern states for quite a lengthy visit. L. W. Babcock, an old friend and fellow townsman of Mr. Rigdon, heard from him yesterday, he writing from Denver. They were to go to Rocky Ford, the old home of both Mr. Rigdon and Mr. Babcock, then to La Junta and on east.

HARRY P. COKER

ELECT HARRY P. COKER

He is a man of business experience, well balanced and capable. He will administer the office of Supervisor of the 5th District honestly and efficiently. Mr. Coker is not a politician. He has lived in Glendale seventeen years, has always helped to keep Glendale clean. He knows also the needs of the great San Fernando Valley.

Miss Helen Wallace of 141 South Cedar street left Friday for Pine Crest, where she will spend several weeks.

Mr. and Mrs. D. Bowers who a few months ago purchased the property in which Mr. Gilkerson was living at 227 North Cedar street, have sold and are moving to Los Angeles.

George and Robert Roach, sons of Mr. and Mrs. G. D. Roach, who have been working during the school vacation at the Box Factory, are about to take a vacation before school opens and will leave the 20th for two weeks at Catalina. They are second and third-year students in the high school.

Mr. and Mrs. Otto Schuch, new comers from Wyoming—sister and brother-in-law of Malcolm McLaren of North Jackson street, have moved in and will occupy the property at 105 North Cedar street. Mr. Schuch is a cabinet maker and builder and at the present time is employed in the Russell Furniture Factory on San Fernando Road.

Mr. and Mrs. J. D. Hail of 134 North Belmont street enjoyed a long auto trip Sunday to Big Rock, beyond Little Rock in the Antelope Valley. Mr. and Mrs. Harry Moore were their guests on the tour in which they saw considerable desert and also many fine pear orchards. They returned by way of Bouquet Canyon.

Mr. and Mrs. N. L. Westbrook of 235 North Adams street returned Friday night from a week's camping trip among the pines in Lockwood Valley, Ventura county. They drove over the Ridge Route almost to Lebec and then went up into the pines which are at a considerable altitude. Mr. Westbrook's sister and brother-in-law, Mr. and Mrs. Kingsbury of Los Angeles, accompanied them.

Right now the building of new residences in Glendale is more evenly distributed than it has been since the great building move started. The district west of Columbus avenue and bounded on the south and north by Broadway and the Wash, and that north of Broadway to the Wash, and between Brand and Glendale avenue, seem to be leading in this respect, with Orange north of Doran not far behind.

Clarence Ralston of 501 West Colorado, who has been playing with his parents in the Pilgrim Play at Hollywood, is enjoying a rest from his dramatic labors as the play closed last Monday. He says at the last of the performances there was a great rush and standing room was sold out every night. In his opinion the performances could have been continued with profit for many weeks. It will be repeated in the same place next year.

Friends of Miss Alice Livsey and Miss Fritch, now in San Francisco, have received letters in which they reported their trunks had not reached them and they were almost frozen, the bay city climate being so much cooler than Southern California. From there they will go to the Lake Tahoe country. Miss Fritch is a teacher in the city schools and she and her mother have recently purchased a home on West Wilson avenue.

Leo Jessen, Asst. Claim Agent for the Santa Fe, who formerly lived at 741 South Glendale avenue and moved thence to Venice last May, was in Glendale yesterday to advertise some lots for sale. He is planning to return to Glendale with his wife and two children before school commences and expects to build a home. He returned Monday from a long business trip to the East and into Canada.

THE AGE OF RETIREMENT

Seattle has two postal clerks who refuse to quit work, although officially discharged and placed on the pension list because of old age. They claim to be perfectly able to do the work required and not anxious to be listed as pensioners. Of course these men have reached the retiring age—65 years—and, according to rules of the department, are excused from further duties. They get an allowance of $60 per month, but prefer to remain as workers.

The man who set an age at which all must retire from active life and live on pensions made a great mistake. He did not know human nature. The idea of the working age of man coming to a terminus at 50, 60 or 65 years is something that few active men are willing to accept as good gospel.

There are men engaged in active work who will soon celebrate the closing of the first century. Some of them expect to be in the harness after they have passed the hundred-mile post. The man who has worked during a long lifetime would not be happy in the supposed enjoyment of a workless old age.

Why set a limit to the days of usefulness? Just as well enact a law setting the date of death, place of burial and prescribing the cost of the funeral.

Are Kansans equipped with one-track minds? Her primary vote was the smallest ever cast, but there is nothing small about her crops.

In Glendale

ARE WE KEEPING UP?

1. We should have a civic center.
2. We should have equitable telephone rates.
3. We should have an Industrial District. (We have it.)
4. We should have a comfort station at Brand and Broadway.
5. We should have a first-class hotel.
6. But should we not have a sanitary sewer system installed now? Think it over

HITCH IN VILLA'S SURRENDER

GENERAL MARTINEZ GOES TO MEXICO CITY TO CONFER WITH PRESIDENT REGARDING DETAILS

(Special Service to Glendale Evening News)

TORREON, Chihuahua, Aug. 14.—Rumors of a hitch in the final plans for the surrender of Francisco Villa, were circulated here today. The disarmament and disbanding of Villa's troops at Tlahuahilo, Durango, has been postponed for a week. General Eugenio Martinez, of Federal forces, has suddenly returned to Mexico City. Both Martinez' chief of staff and Villa denied reports of a break. Martinez wanted to confer with President de la Huerta on the details of Villa's final surrender and also to get money to pay Villa's men a year's wages, it was said.

General Martinez disagreed with Villa's proposal to keep 150 reformed bandits as ranch laborers in addition to an armed guard of fifty men, it was learned.

Villistas have been gathering at Tlahuahilo during the past few days in much the same spirit exhibited by small boys going to the circus.

AHEARN APOLOGIZES

DISPUTE BETWEEN OLYMPIC COMMITTEE AND MEMBERS OF AMERICAN TEAM SETTLED

(Special Service to Glendale Evening News)

ANTWERP, Aug. 14.—The dispute between the Olympic Committee and members of the American team was settled today when Dan Ahearn, holder of the world's record for hop, skip and jump, apologized to the committee for breaking the early retiring rules. The action followed demands for Ahearn's reinstatement when he was ordered disqualified by the committee. Ahearn's disqualification had threatened to disrupt the American team.

MOSCOW WAR ADVICES

ANNOUNCEMENT THAT BOTH WINGS OF BOLSHEVIK ARMY WILL CONTINUE ENCIRCLING WARSAW

(Special Service to Glendale Evening News)

MOSCOW, Aug. 14.—"Both wings of our army are continuing their move to encircle Warsaw," the war office announced today.

JAPAN REPLIES TO AMERICAN NOTES

(Special Service to Glendale Evening News)

WASHINGTON, Aug. 14.—The State Department has received Japan's replies to the American notes protesting against the occupation of Saghalin.

COMPULSORY VACCINATION

Vaccination has not been forced on the people by the doctors. Careful study of the history of small-pox and the results of efforts to prevent its spread and lessen its severity led thinking people to advocate and secure the enactment of the present law. The same study of the question now will defeat this reactionary amendment this fall.

All health laws lessen the amount of business for the doctors and yet they are generally selected to act as health officers to enforce these laws and encourage the use of soap and water and all other means of cleanliness. Sanitation, the result of medical investigation, has done and is doing much to prevent disease and lessen its severity, but making the healthy person proof against disease has also saved millions of people from suffering and death by typhoid fever and small-pox.

There are two sides to this vitally important question and it will well repay careful study, so an intelligent vote may be cast touching the welfare of your own and your neighbor's child.

A. M. DUNCAN, M. D.

"France presents president with official airplane"—headline. Here's hoping he has better luck with it than with his official railroad car.

FIVE FREE LECTURES

—by—

L. W. ROGERS

National President of the Theosophical Society

At Masonic Temple, Glendale.

SUNDAY, AUGUST 15, AT 8 P. M. "THE LIVING DEAD"

In this lecture Mr. Rogers will discuss death as an incident of life—not the misfortune that many think it to be.

MONDAY, AUGUST 16, AT 8 P. M. "REINCARNATION"

What is the Soul? How does the mind come into existence? Is the soul created at birth or has it pre-existence?

TUESDAY, AUG. 17, AT 8 P. M. "THOUGHT-POWER AND FATE"

Is fate within our control? If so, what determines it? Can we change bad fortune into good, and how?

WEDNESDAY, AUG. 18, 8 P. M. "THE SUPERMAN"

This lecture deals with superhuman and super-physical evolution.

THURSDAY, AUG. 19, AT 8 P. M. "SELF-DEVELOPMENT and POWER"

The laws of soul growth will be considered in this lecture. The definite steps of spiritual progress will be discussed.

Admission Free—Collection

THE GARDNER

B. G. SUTHERLAND NOW REPRESENTING POPULAR NEW CAR IN GLENDALE

B. G. Sutherland has recently taken the agency for the Gardner and can be seen driving one of these handsome cars about the streets every day. He also has a Light Four on display at his show room, 230 North Brand boulevard. Mr. Sutherland says that while the Gardner is a comparatively new car it is the product of fifty years of engineering. It is built by the Gardners who have been engaged in manufacturing on a large scale for half a century. The Gardner trademark on anything, he says, means satisfaction and 100 per cent efficiency. The Gardner car represents the ideals of the Gardner factory.

The simplicity of design of the Gardner is very attractive. In appearance it compares favorably with cars that are higher priced. Mr. Sutherland says this is true in every point a man considers when he is buying a car. Its action, comfort and durability all bear out the appearance of the car.

At Lund, Utah, travelers on the Salt Lake and Los Angeles Railroad have become accustomed to finding a big passenger bus backed up to the platform railing, for the accommodation of tourists and others desiring transportation to the Zion National Park. A big Packard bus built on a two-ton chassis, operated by John Day, driver for Ben Knell, of Cedar City, meets the morning trains from Los Angeles and Salt Lake to haul passengers to Cedar City, a Mormon settlement 35 miles distant across the southern Utah desert. In this service a bus is subjected to very severe road conditions and to assure comfort for his passengers the owner of the bus has equipped it with pneumatic tires all around. The 36x6 and 38x7 Goodyear cord tires now serving on this run have already delivered 9,000 miles without any one of the four tires having been removed from the rim, and are still rolling out their allotted 70 miles per day with clock-like regularity. This line is one of the most important in that section of the state for it offers the only means of transportation from the railroad to the settlements in Zion National Park.

If Christian Science succeeds in making us believe there is no such thing as pain, it will rob a lot of people of the pleasure they take in being miserable.

OLD TIRES

MOST WORN TIRES ARE CAPABLE OF EXTRA MILEAGE, SAYS J. K. HOUGH

"Don't throw that old tire away," is the injunction of J. K. Hough, Automobile Tire Department manager for the Goodyear Tire & Rubber Company of California. "Few tires are completely worn out when thrown away. Most of them are capable of considerable extra mileage if given a little help. A rim-cut patch or an inside tire protector will often add hundreds of miles to the life of a tire.

"A rim-cut patch is designed for application on the inside of the tire with flaps fitting underneath the bead of the tire on both sides to hold the patch in place. It is flexible and enduring and once applied, is out of sight and mind. Tires which seem hopelessly rim cut are given a new lease of life after being reinforced by a good rim-cut patch.

"And then there is the inside tire protector which is designed to provide complete reinforcement for worn and weakened casings. Its use often adds several thousand miles to tire life that appears nearly ended. It is applied on the inside of the tire as its name suggests and provides at a very low cost many miles that otherwise would be lost.

"Anything that gives a tire longer life keeps real jingling dollars in the car owner's pocket and puts off the day when the purchase of a new tire would be necessary. We are not for economy that goes to the extent of scrimping, but we believe that if the millions of tires available in this country are run properly, the ends of conservation will be met.

"Tire accessories also make an ideal and profitable investment at any time but right now they are especially timely and economical. For instance, the tire saver kit obtainable from Goodyear service stations is just what the name implies, for it contains just the accessories that permit a motorist to put into practice the fashionable principles of tire conservation.

"Take the pressure gauge, which is but one of the items in the kit. It enables the car owner to maintain proper air pressures and to know at all times just how much air his tires contain. Then there's tire putty which heals wounds and keeps out sand and dirt, which are active tire destroyers. And so on through the list. Help your tires and save money. A stitch in time saves nine.' "

Advertist it, or advertise for it in the Evening News.

W. W. SHAVER AT HEAD OF BROADWAY GARAGE

Motor car owners generally are pleased that Mr. Shaver is once more owner and in personal charge of the well-known Broadway Garage, for during the time Mr. Shaver operated the place prior to selling out to M. J. McGrew some months ago the Broadway Garage was a decided favorite with them for a number of very good reasons. Mr. McGrew will in the future devote his entire attention to his Velie car agency and Mr. Shaver will be more in actual evidence than ever in looking after the wants of his garage patrons. He has long been known as one of Glendale's most capable experts in the matter of auto repairing and has enjoyed the fullest confidence of a whole lot of knowing car owners hereabouts in this respect. Mr. Shaver has been an auto mechanic for so many years that he is thoroughly familiar with the mechanism of all standard cars—knows exactly what to do the minute he looks the "cripple" over, and goes about his work understandingly. This means a saving to the owner, because there is little time lost in beginning the job. And, too, Mr. Shaver bears the reputation of being an honest man, by which is meant, that he is open and above board on all estimates on repair work, and therefore conscientious in making his charges. Really, he is a worth-while garage man, one you ought to know. His splendid work, his reliability, his fairness in all things is why he is such a busy man at all times. Mr. Shaver also handles tires, tubes, gas, oils, etc., and is in every way prepared to meet the car owner's every requirement promptly and satisfactorily. The Broadway Garage is located at 721 E. Broadway. Phone Glendale 2333-J.—Adv.

REPTILES THAT SHED THEIR SKIN

Among the reptiles many, like the lizards and snakes, shed the whole skin at once, which they contrive to cast in a single piece, wriggling out of the old skin and leaving it behind them in the form of a hollow sheath, a mere ghost of the wearer. The frogs and toads contrive to make some profit on the transaction, since they eat their own castoff garments.

Property on Wall Street is said to be worth forty million dollars an acre—and not a foot of it is broken to the plow, nor is the water fit for dairying purposes.

More room is needed at once at the High School. Vote for the bonds August 16th.

GARDNER

"It Speaks for Itself"

THE GARDNERS HAVE BEEN ENGAGED IN BIG VOLUME MANUFACTURING FOR NEARLY HALF A CENTURY AND THE MOTTO OF THE GARDNER FACTORY HAS BEEN 100 PER CENT VALUES.

THE GARDNER LIGHT FOUR

IS THE SOLUTION OF THE PROBLEM THAT HAS ENGAGED MECHANICAL ENGINEERS FOR YEARS—HOW TO COMBINE COMFORT, DURABILITY, CONVENIENCE AND BEAUTY IN A MEDIUM-PRICED CAR. GARDNER ENGINEERS HAVE SUCCESSFULLY WORKED OUT THIS PROBLEM.

I Have Taken the Agency for the

GARDNER

And would like to show you the car and give you a demonstration. You will like the straight-line simplicity of the Gardner, its roominess and comfort assured by the wide seats, deep spiral springs and ample leg room.
The comfortable position of the driver at the wheel, the ease with which the car is operated, the slanting double ventilated windshield, the door-opening curtains, are a few of the things you will appreciate.
The motor of the Gardner Light-Four secures proficient performance and reliable service by simple approved design, perfected by competent engineers and by high-grade workmanship and careful construction.

AMBASSADOR JUSSERAND ON ON SARCASM

One of the three rules laid down by Ambassador Jusserand in his message to the American Legion Weekly for the continuation of good relations between France and America apropos of Bastile day reads: "When remonstrance has to be made, it must be purged of the poison of sarcasm and irony, which has never helped any but ever injured both the user and his victim." There speaks a Frenchman whose standing in the diplomatice world is as unquestioned as is his knowledge of French literature from Voltaire to "Pertinax." It would almost seem that France's distinguished representative at Washington had compared notes with Le Temps, which came out only the other day for plain speaking, unembellished with wit and freed of all clever but cryptic insinuations which may make spicy reading, but in whose wake friendship is not apt to follow, but rather misunderstanding. If there are any two peoples more skilled than others in the use of sarcasm, irony and other forms of smartness, they are the French and the Americans. Jusserand wishes no dulling of the wits. He merely advises discretion in the use of them, particularly at the present time, when "crises" are as plentiful as blackberries. —New York Evening Post.

Normalcy and Commensensical are not bad, as words go. Mr. Hardiing might have inflicted upon us normalousness or commonsensicalosity.

THE BATTERY

SHOULD RECEIVE SPECIAL ATTENTION IN WARM WEATHER, SAYS B. L. GRAVES

"The battery should receive extra attention in warm weather due to the evaporation of the water from the atmospheric temperature and the overcharging," says B. L. Graves, the Los Angeles branch manager of the Ford Motor Car Company, in giving a bit of valuable advice to Ford car owners who inhabit this part of the country. "Especially should this additional care be taken in California for although the sea breezes fan the motorist, the battery underneath the car gets all the reflected heat from the paved roads. Thus it can easily be seen why water evaporates more rapidly in summer and why the battery should be watched more carefully and filled with water more often than at any other time during the year.

"It is an inherent feature of a starting and lighting system that the battery will overcharge in the summer due to the following: First, the resistance in the battery wires, and between the commutator and the brushes is low permitting a higher rate of charging. Second, the engine starts easily causing very little strain on the battery. Third, as the days are longer the lights are not used as much as in the winter. Fourth, the automobile is driven on longer trips with fewer stops and starts.

"The solution should be examined once a week or oftener and distilled water should be added to bring it to the proper level.

"The condition of the battery may be relieved by occasionally running the starting motor for a minute while the ignition is off. Some drivers relieve their battery by burning their lights. This latter method, however, uses up the life of the lamps. It is therefore more expensive than drawing it down from the starting motor.

"Never attempt to relieve the battery by disconnecting any of the wirings or adjusting the cutout as such practice inevitably results in burning out the generator," concluded Mr. Graves.

THOROUGH INSPECTION

One of the advantages that a large tire manufacturer has in maintaining a high standard of perfection, is the high degree of thoroughness with which he can afford to inspect the product in all its different stages of manufacture.

In small factories a great variety of tire building operations comes quite frequently under the direct inspection of one person, while in large plants where thousands of tires are built daily, the work of an inspector covers but one single operation of the many that are involved in tire building.

Just how extensive this system of inspection may become is indicated in the practice inaugurated at the new plant of the Goodyear Tire & Rubber Company of California, where the materials and workmanship incidental to tire construction, pass through more than 600 rigid inspections before the tire leaves the shipping platform.

Late authorities on algebraic problems tell us that men should marry the hustling type of girls. Girls are willing to hustle for a man who wants that kind of a girl.

UNIQUE SCHOOL

It is surprising what a "business within a business" has developed in the repairing of automobile tires. Registration figures show that more than 7,000,000 cars are now in service. And when you stop to consider that each one of these cars is engaged in wearing out four tires, with a fifth doing service as a spare you begin to realize that 35,000,000 tires offer opportunities for the repairman and his art.

There never has been a greater need for competent repairmen than exists right now. So the Goodyear Tire & Rubber Company of California, with the idea of contributing to the cause a share of the experience which has been assimilated by its tire experts, is announcing the opening of a school of tire repairing at Los Angeles, in which free instruction will be given to persons contemplating an entrance into the business and to those already in it.

The school will open on August 23 at the new Goodyear plant, in charge of J. R. Wells, manager repair materials department and G. H. Irvin, chief instructor, and is open to vulcanizers throughout the entire West.

A complete practical course, consisting of three weeks of shop work and lectures, will be furnished. Beginning with fundamentals every step in scientific tire repairing will be demonstrated by an expert.

Not only will the theory of tire repairing be presented, but each member of the class will be given the opportunity to put into actual practice the latest approved methods, so that dent will be qualified to undertake when the course is completed the stuany kind of repair job from a puncture to a retread.

Working conditions and equipment used will not be those of a big factory, but will approach those of the average tire repair shop. No methods will be taught that cannot be employed by any repairman with a modest capital.

Instruction in business methods is also a part of the course, that students taking up the business may handle efficiently and profitably.

The school is being inaugurated in the belief that many men will eagerly grasp the opportunity to obtain instruction in a permanent and profitable business which is growing enormously with the advance of the automobile.

It opens up an opportunity to learn vulcanizing, for Westerners who heretofore have felt their inability to meet the expense of a trip to the factory school at Akron, Ohio. Further information concerning the activities of the school may be obtained from the Repair Department, Goodyear Tire and Rubber Company of California, Los Angeles.

STEERAGE FARES GO UP

The effect on immigration of increased steerage rates of travel remains to be seen, but that the latest boost piled on others that have preceded it will diminish the inflow of aliens is probable. With steerage fares ranging from $79 to the British Isles to $135 to farther points on the continent of Europe, coupled with the adverse exchange situation, the difficulties of those desiring to emigrate to America are correspondingly increased. These prices are equal to first class passenger fares a few years ago. The situation is likely to have an effect to diminish steerage travel Europeward also.

Since the bars were lowered many who came here as immigrants before the war have gone back to visit relatives and the scenes of their earlier lives. Others, doubtless, have been contemplating the trip, but in view of the increased cost a lesser number will be likely to carry out their desires in that line. Since greater immigration had been hoped for in order to relieve the shortage in common labor the cost of coming may check the volume of what had recently reached rather large proportions.

In raising the fares steamship companies may be acting from a dual motive—in response to a demand greater than the supply of space and to reap a greater profit from the traffic. It is well known that transportation facilities for first-class passengers are and have been far less than the demand and are likely to remain so until the passenger carriers destroyed by the war are replaced. The high fares have stimulated rather than reduced the desire of tourists to go abroad, but such are not bound by the same restrictions that surround an immigrant. The former have the money to spend for pleasure, while the emigrant takes his trip as a matter of business in order to better his station in life.

Yet if the increased cost in fare is met by correspondingly higher wages when one gets here the prospective immigrant will be encouraged to make the effort to accumulate the greater fund necessary. Like in everything else, the higher cost will be passed on to the ultimate consumer.

That 60,000 barrel oil strike in the Vera Cruz field is no guarantee that things will run smoother in Mexico.

WILLIE'S EXCUSE

The slang expression "hardboiled" to denote a disagreeable person reminds us of a youngster who could not eat an egg without feeling distressed. Chided one day for speaking rudely to his aunt, he said: "I can't help it mother; she affects me just like an egg."—Boston Transcript.

PARIS.—Eat what you like, but only enough to sustain strength, Mme. Sarah Bernhardt says. Advising women how to keep well and live long, she added: "Drink water, never wear corsets, don't worry and cultivate forgetfulness."

Vote for school bonds Monday.

Sunday Services at the Churches

GLENDALE MISSION
Corner Harvard and Maryland. "The Power of Forgiving Love," will be the subject for the address by Dr. Funk Sunday morning at 11 o'clock. Our Church School begins at 10 a. m. The public is cordially invited to attend.

FIRST METHODIST
Corner Wilson and Kenwood. Rev. C. M. Crist, D. D., pastor. Owing to the absence of the pastor, Rev. C. R. Norton will occupy the pulpit at 11 a. m. and at the evening service there will be a lecture by Prof. F. W. Lough of the "No Tobacco League." Class meeting at 12:15, Rev. C. R. Norton, leader. Epworth League at 6:45. Intermediate League at 6:45, L. C. Leeds, leader. Prayer meeting Wednesday evening at 7.45; Epworthian prayer meeting at the same hour, to which all young people are invited. Woman's Home Missionary Society Anniversary at Huntington Beach, Friday afternoon, August 20. Brotherhood monthly meeting has been postponed on account of the absence of the pastor.

CHRISTIAN
Corner Louise and Colorado Streets. Clifford A. Cole, minister. Tomorrow morning at 10:30 the Sunday School will have special features furnished by the natives of Illinois. All former residents of that State will enjoy being present. The minister will preach morning and evening, Morning theme, "The Value of Your Signature." At night, the subject will be, "Honesty Is Not Always the Best Policy." Inspiring music at both services. Young people's meeting at 7 o'clock.

PRESBYTERIAN
"Church of the Lighted Cross." W. E. Edmonds, pastor. Services both morning and evening. Morning worship 11 o'clock. Sermon topic, "A Busy Man's Blunder." Evening service, 7:45. Organ recital, 7:30. Sermon topic, "Four Hard Questions." Sabbath School, 9:30. Endeavor meetings at the usual hours.

Musical program—Morning: Prelude, "Melodie" (Paderewski) Miss Carolyn Bailey, organist. Quartet, "The Heritage of Those That Fear Thy Name," (Futer). Offertory, "Hope" (Aletter). Tenor Solo, "Come Ye Blessed" (Scott) Mr. Allan McDaniel. Gospel Duet, Mrs. Zetta Gibbons and Mrs. Fannie Marple Retts. Postlude, "Grand Chorus" (Dubois). Evening—Organ recital: "Intermezzo" (Bizet). "The Pilgrim Chorus" (Wagner). "Slumber Song" (Shumann). Quartet, "Accept My Heart" (Brackett). Offertory, "Benedictus" (Himmel). Baritone Solo, "My God, My Father" (Marston) Mr. Clifford Riggs. Gospel Solo, Mrs. Fannie Marple Retts. Postlude, "Triumphant March" (Costa).

CATHOLIC
Mass at 7:30 and 9:30 a. m. Sunday School at 8:30 a. m. Sermon in English at 9:30 service. Doors open for all. Rev. James S. O'Neill, Pastor.

CHRISTIAN SCIENCE
First Church of Christ, Scientist, corner Maryland and California avenues. Service Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, August 15, "Soul." Sunday School at 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 South Brand Blvd., open daily except Sunday and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

CHRISTIAN AND MISSIONARY ALLIANCE
Meetings every Tuesday and Thursday, 7:30 p. m. Gospel Tabernacle, 310 E. Chestnut street, corner of Louise. Full Gospel—Jesus Christ Saviour, Sanctifier, Healer and Coming King.

FIRST BAPTIST
Ernest E. Ford, pastor. The pastor has returned from his vacation and will preach at both services on Sunday. Theme of the morning sermon, "A Lost God." Evening theme, "The Big Fact in Life." Prayer meeting on Wednesday evening.

The Classified List

The attention of our readers is called to the classified advertising department of the Evening News. In this issue of the paper you will find almost a page and a half of classified ads. This part of the business comes to the Evening News without solicitation and from every hand we hear encouraging words spoken of the good results obtained. If the article advertised is something for which there is a demand there are surely many replies, and by perusing the columns of this department this week you will be convinced that the advertisers must get fairly satisfactory results or they would not patronize this page as they do. The Glendale Evening News has a very live circulation and is a paper read with intense interest by the citizens of Glendale. The honest and real practical part about the whole affair is that our "paid in advance" list, which is corrected up to date is open for the inspection of our advertisers. The policy of the Evening News has always been to give full value for all money received, and the publisher feels that it is his duty to make public to his patrons the exact number of subscribers on the list.

Returns from East

Rev. E. E. Ford has returned from a two months' sojourn in the East in the course of which he attended the college commencement of his alma mater at Kalamazoo, Mich., and the Northern Baptist Convention at Buffalo, and then visited his mother in New York state. She is 93 years of age and while he was there a family reunion of his brothers and sisters was held.

Poland's Fate

Conquest of Poland by the Bolsheviki is but another episode in a long and tragic career. The woes of Poland have been familiar in the ears of students of history since the earliest school days of the oldest living man. The Slavish group known as the Poles appeared as early as the second century of the Christian era. For many centuries Poland has been the victim of attrition between two hostile forces, the Germans on the west and the Mongols and Tartars on the east. Its numerous "partitions," from the first made by Catherine of Russia in 1772, to the last in 1795, when the dismemberment was completed, brought the ancient kingdom to be the "door mat of Russia," as it was contemptuously characterized by the great empress.

There is reason to believe that in its ill-fated effort to restore her boundaries to the original of 1772 Poland was encouraged mainly by the French. We know that in a mild way she was discouraged by the English, who were anxious to restore trade relations with Russia. Whether Poland now is to be completely dismembered by the Red hordes depends upon the Allies. Without strong outside military assistance she appears destined to that fate.

Debs will not need to ask the Socialist party to pay his traveling expenses in his campaign for President.

Almost any consumer would be willing to look a profiteer in the face from the outside of a cell.

Most of the "horny handed sons of toil" now get corns on their hands steering automobiles.

Slogan of wet voters in their campaign against dry Congressmen: "They kept us out of beer."

Germany will be better off when she admits that she is not as hard up as she professes to be.

It is all right for history to repeat itself, but it need not be so noisy about it.

THE EVENING NEWS OFFICE IS OPEN FOR BUSINESS FROM 6:30 O'CLOCK A. M. TO 9:30 P. M. EVERY DAY OF THE WEEK EXCEPT SUNDAY. 139 SOUTH BRAND BOULEVARD. PHONE GLENDALE 132.

VOTE FOR REAGAN FOR CONGRESS

(FLOOD CONTROL ENGINEER)

The Man Who Has Done—Is Doing—and Will Do—Things Worth While

James W. Reagan was born October 6, 1864, on a farm in Bourbon county, Kansas. His birthplace was almost a battlefield, for on the day of his birth the battle of Mine Creek was being fought within a few miles of his father's farm, and his father at the time was in the Union Army in battle.

Education and Early Business Life

Mr. Reagan was educated in the public schools of Kansas, and at the Normal School at Fort Scott, Kansas; in the latter institution he was afterwards instructor in Latin and Engineering.

In 1884 on account of poor health Reagan left the Normal School, and commenced the busy, out-door life of a Civil Engineer.

From 1884 to 1898 he was in turn Locating, Constructing or Consulting Engineer on railroad, or irrigation projects in Kansas, Missouri, Oklahoma, Colorado and Utah, and also in Mexico. His marked success as an engineer being soon recognized, Mr. Reagan was sent in 1898 to South Africa where, with headquarters at Johannesburg, he was consulting engineer on a railroad and reservoir system.

Returning to the United States in 1902, his work soon attracted the attention of the big railroad systems in this country, and in 1904, Epes Randolph, recognized as one of the greatest engineers on the Pacific coast, sent for Reagan. From 1904 to 1912, Mr. Reagan was associated with Epes Randolph as his confidential and executive engineer; this relationship continuing until the death of E. H. Harriman ended the big railroad construction plans of the Harriman interests.

Reagan was placed by Epes Randolph in charge of location and construction work on the west coast of Mexico from Guaymas to Sinaloa, through the Mexican States of Sonora and Sinaloa; here was expended in railroad and irrigation projects more than $15,000,000.

This work necessarily was done under Mexican laws, and Mr. Reagan became, and is, familiar with the export and import rules, customs, and laws governing transactions between Mexico and the United States. Mr. Reagan speaks the Spanish language fluently; and the experience obtained during those years of active business life in Mexico gives him a knowledge of Mexican customs and laws, the needs of Mexico, etc., that is equaled by few men in the United States, and surpassed by none.

Executive Ability

In his executive work Mr. Reagan came in close contact with the big men of this country, in both financial and political circles, to such an extent that when it became necessary for the Board of Supervisors of Los Angeles county to send a representative to Washington during the war to secure the release of money for the immediate construction of the Flood Control channel through Long Beach, Reagan was instantly recognized as the ONE man to send. The people of Los Angeles county know the result; Reagan went, and the money that is now being expended in the construction of the "big ditch" at Long Beach was secured by him.

During his 36 years of engineering work, as directing head of different enterprises, there have been employed under Mr. Reagan between seven and eight hundrd thousand men; and James W. Reagan enjoys the record that during the entire 36 years with that enormous number of men, he has never had the slightest labor trouble. The capitalists furnishing the money, and the men working under his direction, recognized that with James W. Reagan in charge both were insured a square deal.

Flood Control

For years the people of Los Angeles county have recognized that the great annual floods causing enormous loss of property must be brought under control; and in 1914 definite plans were inaugurated to that end. The first thing necessary was a thorough survey by engineers to determine what was necessary, and the approximate cost. The finances having to be obtained from three sources: Nation, State and County. In April, 1914, the board was appointed and consisted of J. B. Lippincott, F. H. Olmstead, Harry Hawgood, Capt. Charles Leeds, U. S. A., and James W. Reagan. On July 27, 1915, after exhaustive surveys a majority report was submitted to the Board of Supervisors by the first four engineers named; and a minority report by Mr. Reagan.

The people of Los Angeles county know the result, how after months of investigation, the minority report of James W. Reagan was admitted to be the only working, practical plan, and was adopted by the Supervisors.

Engineer Flood Control

In selecting the Chief Engineer, Epes Randolph, "The Conqueror of the Colorado River," on one of his regular trips to Los Angeles, was consulted by the Supervisors and his advice sought. His reply, typical of the man, was laconic: "Send for Reagan." On September 15, 1916, Reagan was appointed Chief Engineer of the Los Angeles County Flood Control District; and ever since the work has progressed as rapidly as time and money available would permit.

James W. Reagan, together with Frederick Baker of Glendale, are the men responsible for the passage of the Flood Control Act, commonly known as the Baker Act; and later, with the approval of the State Board of Control, they secured the state appropriation necessary to start construction.

Today the Flood Control channel at Long Beach is under construction; the Devil's Gate Dam above Pasadena nearing completion; the retaining dikes along the different river beds from the mountains to the ocean; and the surveys and plans for the dams in the Pacoima and San Dimas Canyons, all bear testimony to the ability of James W. Reagan.

It has been necessary on different occasions to send emissaries to Washington since 1914 to secure Federal aid; Windham, Roberts, Prisk and Van de Water have gone with good results; but on each and every trip each one of them has carried plans, details, specifications and estimates drawn and prepared by James W. Reagan.

So Much for the Past, What of the Future?—Federal Aid

Additional Federal aid is an absolute necessity. The scope of the work constructed with Federal money should be extended so as to include not only Flood Control but in addition Conservation of the flood waters, and their use for domestic and irrigation purposes. James W. Reagan is the best qualified man in the State of California to bring the necessity for additional Federal aid to Los Angeles county for these purposes before Congress; his knowledge of the county and its needs is unequaled.

Mexican International Relations

He is better qualified from practical business contact with the Mexican people to deal with the relations between this country and Mexico than any candidate seeking the nomination in the 9th District.

Citrus Industry

The citrus industry, better protected than ever before from the ravages of flood menace, requires additional tariff protection; James W. Reagan, by reason of his extended acquaintance with men of national reputation, is better able to secure this relief than any candidate for Congress now before the people in this district.

Republicanism

Reagan is the ONLY Republican candidate whose Republicanism stands unquestioned. Randall is a Prohibition-Democrat; and has voted consistently with the latter party during his three terms at Washington. Creswell has been the nominee for Congress on the Socialist ticket. Van de Water on numerous occasions has wandered from the Republican fold, he is said in 1914 to have voted for Randall and against Frank C. Roberts; in 1916 to have voted for Randall and against L. L. Lostutter; and in 1918 to have voted for Randall and against Montaville Flowers.

Although asked the direct question Mr. Van de Water declines to state for whom he voted for Congress in the campaigns of 1914, 1916 and 1918. Will he answer now?

Patriotism

James W. Reagan's patriotism has never been questioned. Although in his 53rd year when this country entered the World War, Mr. Reagan immediately volunteered his services as a $1.00 a year man, either as construction or consulting engineer. He was not called, but received from the War Department the certificate enrolling him, and thanking him for his patriotic offer.

His two sons enlisted; the eldest then at Stanford, enlisting in one of the first Ambulance Units sent to France. Both of his sons are now members of the American Legion.

Since the war ended, it is a well known fact that Mr. Reagan has and is, employing returned soldiers exclusively in the office of the Flood Control Engineer.

Mr. Reagan's eldest son, Capt. William N. Reagan, on account of his excellent work in France was recommended for appointment in the consular service of the United States; and some months ago, after his marriage with Miss Clara Windham, daughter of former Mayor C. H. Windham, of Long Beach, was appointed Vice-Consul at Prague where he is now stationed.

Club Membership

In club life Mr. Reagan is a member of the Union League and City Club of Los Angeles; a member of the Independent Order of Odd Fellows; and in professional life a member of the American Association of Engineers.

Temperance

Mr. and Mrs. Reagan established their residence at Long Beach in 1907, because of Long Beach's reputation as a temperance city.

Mr. Reagan supported and voted for the Bone-Dry "Prohibition" act and opposed and voted against the Rominger "Liquor Regulation" act on the ballot at the general election of 1918.

The Prohibition Amendment is now a part of the Constitution of the United States. Every bill or resolution proposed to put into operation the Prohibition Amendment, and to provide penalties for its violation will receive the support and vote of James W. Reagan.

Reagan Trusts the People

Regarding it as an illegal attempt to return to the old boss-ruled convention, James W. Reagan refuses to enter any so-called elimination scheme, planned by certain reactionary Republicans of the old school and is willing to trust the people and to leave his candidacy in the hands of the Republican voters where it is placed by the Direct Primary of California.

REAGAN FOR CONGRESS ORGANIZATION.
